

Quality Portable Lift Equipment – Proudly Made in the USA Since 1954

PRODUCT SPECIFICATIONS FOR STEEL FIXED HEIGHT TRIPODS

Tripod shall be of steel round tube construction manufactured to Wallace Cranes standards including, but not limited to, the following:

- Tripod shall have fixed height.
- A casting used to serve as a foot shall be provided for the bottom of each leg.
- Tripod shall include an Almag 35 head casting for attachment of tripod legs. Head casting shall include a free-swivel eye bolt which shall hang plumb.
- A cable assembly with two wire rope clips shall be provided to prevent overspreading of the legs.
- The tripod legs shall be dip painted with red gloss industrial quality paint for protection of both inner and outer tubing.
- Tripod pins shall be plated to prevent corrosion.
