

Fixed Height Aluminum Tripod

Wallace Cranes offers 3 different portable aluminum fixed height tripods. These lightweight models are easily transportable and can be assembled/disassembled quickly making them an ideal choice for repair and maintenance jobs located off-site. All units include a standard base with lashing cable to prevent overspreading of the legs. Rubber Base Pad Kits, Mud Base Plate Kits, and Spike Base Kits are optional accessories available for every model. Our tripods are recommended to help set-up our larger cranes when a forklift or overhead lifting equipment is not available.

Product Features

- Sturdy lightweight aluminum construction for quick set-up and take-down
- Easily transportable
- Available in 1/2- & 1-1/2-ton capacities
- Available in fixed heights of 12'6", 8'11", and 5'4"
- Machined alloy head holds free-swiveling eye bolt which always hangs plumb
- Legs rest securely on standard bases - optional base accessories are available for different surfaces
- Lashing kit prevents legs from overspreading and can be used with all of the optional base accessories
